Company Presentation

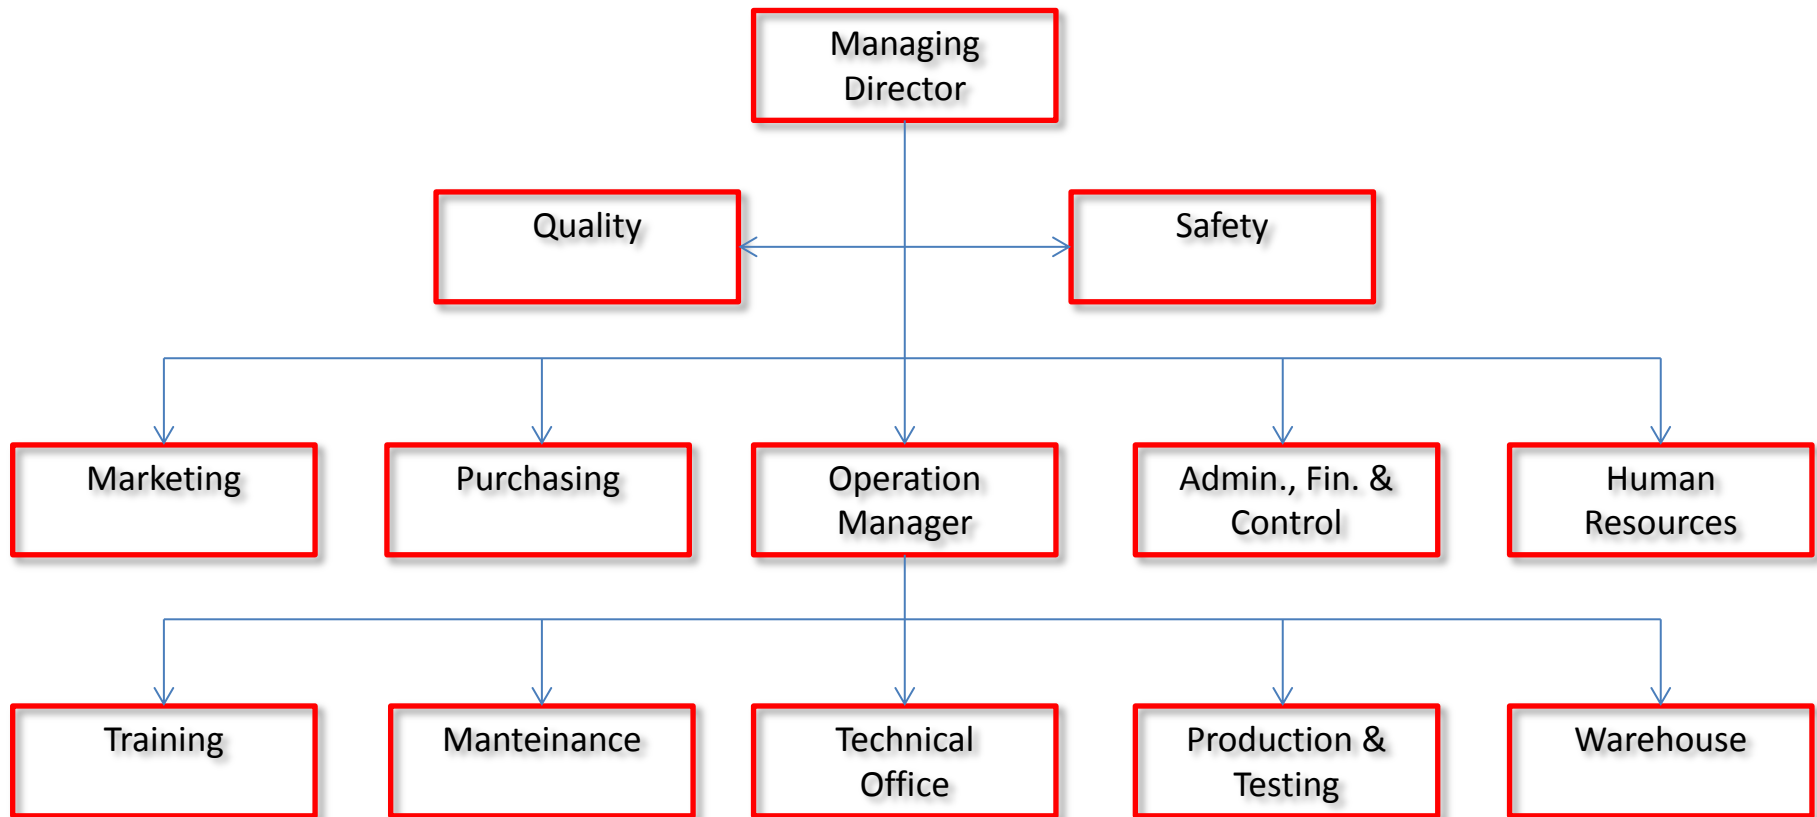

Instrumentation, **C**ontrol And **A**utomation **TEC**hnology

ICATEC - Unipersonale is a full service Systems Integration Firm and Control Systems Panel fabrication facility, providing services from product development to the realization of Industrial Process Automation Systems.

In a strategic move of **Skem@ S.r.l. - Engineering and Consulting**, the company **ICATEC S.r.l.** was founded in 2010 to focus its activities into the Industrial Automation market. **ICATEC S.r.l. – Unipersonale** is a spin-off and 100% subsidiary of **Skem@ S.r.l.**

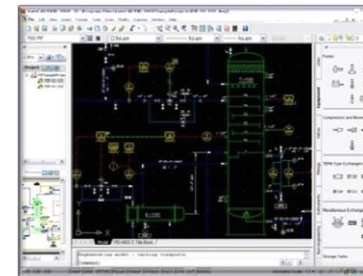

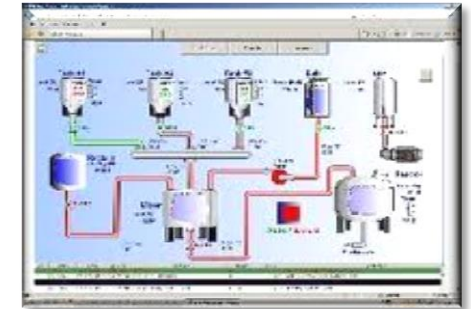

Due to the vast knowledge and experience which **Skem@ S.r.l. - Engineering and Consulting** has transferred, **ICATEC S.r.l. – Unipersonale** can offer hardware design, hardware procurement, software development, installation supervision, commissioning and start-up assistance, documentation, training, and maintenance support.

Organizzation

Technical Services

- Feasibility Study and Automation Concept Development
- Design of Control Systems and Low Voltage Panels
- Fabrication of Automation and LV Panels
- Control Logic and HMI/SCADA Development
- Tests (in the workshop & field)
- Commissioning & Start UP
- Operator & Maintenance Training
- Maintenance and Technical Support

Systems / Platforms

- Integrated Control Systems (ICS)
- Integrated SCADA and PLC based Control Systems
- Emergency Shut-Down (ESD) and Fire & Gas (F&G) Systems
- Substation Automation, Distribution Manag. Systems
- Terminal & Tank Farm Management Systems
- Telecommunication Systems
- CCTV, Access Control Systems
- Field Instrumentation

Advantages and Competitiveness

- High quality services
- Orientation to Customer Satisfaction and Results
- Services and Solutions Quality and Costs Contents
- Innovation
- Updates and Training
- Flexibility and Availability
- Respect and Valorisation of human resources

The Technology is our mission

Business Sectors

- ❖ Chemical / Petrochemical
- ❖ Oil & Gas
- ❖ Energy
